HUSQVARNA TRACTORS
AND ARTICULATING RIDERS

ARTICULATING RIDERS

Superior maneuverability, amazing versatility.

Husqvarna articulating mowers put the professional touch on your yard. Articulated steering provides first-class maneuverability and makes driving around trees, bushes and flower beds a breeze. The efficient rear-wheel-drive system ensures excellent traction when mowing on slopes and is further enhanced with all-wheel-drive on the R 322T. Combined, these two features provide best-in-class mowing performance.

- Precision-Welded Steel Chassis
- Front-Mounted Cutting Deck
- Intuitive Operation
- Easy-Access Controls
- Versatile Attachments

VERSATILE CUTTING SYSTEMS

The Air Induction™ side-discharge cutting deck allows grass clippings to be dispersed evenly. The deck also has a reinforced tube bar for extra durability around the deck frame. The Combi cutting deck (shown) is perfect for mulching, which promotes a healthier lawn.

CONVENIENT SERVICE POSITION

A clean cutting deck always gives the best cutting results. The cutting deck is easily tilted up into service position, which makes it easy to clean and service (except R 120S).

INTUITIVE OPERATION

The foot-pedal drive system, soft-grip steering wheel, and automatic cutting deck engagement makes the Husqvarna Riders extremely user-friendly.

EASY-ACCESS CONTROLS

All controls are ergonomically located and easy to reach from the driver's seat. The cutting blades are engaged automatically when the cutting deck is lowered.

VERSATILE ATTACHMENTS

Available attachments include: Flail Mower, Snowblower, Rotary Broom and Snow Blade.

R 322T AWD

LS SERIES TRACTORS

Practical, powerful and a pleasure to drive.

Our LS Series garden tractors with side discharge are ideal for large properties. They feature wide cutting decks, extra heavy-duty chassis, first-class ergonomics and powerful engines so you can perform like a pro. All LS Series models feature a hydrostatic transmission for superior transport speeds, as well as cruise control and extra-large rear tires for a smoother ride.

- Powerful Engines
- Push Button Starting*
- Heavy-Duty Fabricated Cutting Decks
- Ergonomic Step-Through Design
- Smooth, Pedal-Operated Hydrostatic Transmissions
- Fender-Mounted Cutting Height Adjustment

YT48XLS

*GT52XLSi only

HUSQVARNA'S EXCLUSIVE SMARTSWITCH.™ CONVENIENCE AT THE TOUCH OF A FINGER.

Available on the GT52XLSi

The new SmartSwitch™ ignition brings the convenience of one-touch starting, real-time feedback and “keyless” security to lawn equipment. No more complicated starting procedures, lost keys or concerns of leaving unattended.

READYSTART® FOR RIDE SYSTEM – ENJOY AUTOMOTIVE LIKE STARTING.

The automatic choke senses engine temperature and delivers the right amount of fuel for starting – every time. No more choking, no more flooding, no more hassles. It even makes cold weather starting easier.

DURABLE CUTTING DECKS

Equipped with superior mowing decks, our LS Series tractors feature heavy-duty fabricated steel cutting decks supported by a Lifetime Limited Warranty.

EASY OPERATION WITH PEDALS

The pedal-operated hydrostatic transmission ensures easy speed and direction control with separate pedals for forward and reverse.

CONVENIENT CONTROLS

All gauges and controls are easily accessible from the operator's position.

LIMITED WARRANTIES

GT52XLSi

All features mentioned are not applicable for all models.

GARDEN TRACTORS

Premium performance with precise results.

Compact and versatile, Husqvarna's garden tractors provide superior year-round performance. Features such as fender-mounted cutting height adjustment, adjustable seat and an ergonomic steering wheel make these tractors simple and comfortable to operate. Hydrostatic transmissions* and Air Induction™ mowing technology ensures a clean, consistent cut every time. In addition, all models can be equipped with a range of towable accessories.

*All engine values are rated by the manufacturer. The power rating of the engines indicated is the average net power output (at specified RPM) of a typical production engine for the engine model measured to SAE standard J1349/ISO1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables. Specifications and pricing subject to change.
