

TALL GRASS

LESS WORK

HUSQVARNA ZERO-TURN MOWERS

PZ AND P-ZT SERIES

Handle the big jobs with quicker turn around.

The PZ Series represents the latest in high-performance mowing. Their drive systems, operator interface and cutting deck designs deliver superior cut quality and clipping dispersal, all at higher ground speeds. Careful consideration of components and design not only provide extended durability, but unprecedented ease of service access.

- High-Performance Kawasaki FX Series Engines
- 7-Gauge Fabricated Deck
- Convenient, Intuitive Ergonomics and Controls
- Optimized Air Flow and Discharge Performance

PZ 72

HUSQVARNA P-ZT SERIES – INDUSTRY LEADING DESIGN AND PERFORMANCE.

The P-ZT Series combines the rugged chassis, heavy-duty casters, convenient interface and clean service access from the PZ Series, with new commercial-duty cutting decks and integrated drive systems. The open design allows for better access to service areas and the frame also incorporates tie-down points for securing the unit during transport.

HIGH PRODUCTIVITY

The deck design was developed using CFD (Computational Fluid Dynamics) to optimize air flow for superior cut quality and discharge performance. In addition P-ZT Series mowers are built with a 10-gauge fabricated deck.

EXTENDED DURABILITY

Cast-iron lift arms and spindles, premium commercial engines and oversized hydro systems all combine to make a product that will not only be productive, but will stay in the field longer.

SMART DESIGN

Simplicity of design and execution allows for better utilization of available space, cleaner access and a service friendly environment.

OPTIONAL ACCESSORIES

Versatile accessories allow tough jobs to become easy. From collection systems, to light kits and mulching kits, these options allow users to face any mowing challenges.

COMFORTABLE & PRODUCTIVE

The specially designed suspension seat provides maximum support, even over extended periods. A combination of mechanical suspension and Elastomeric Vibration Control (EVC) technology, smooth out the rough terrain to keep the operator in comfortable control.

All features mentioned are not applicable for all models.

P-ZT 60

MZ AND MZ-T SERIES

The economical, commercial zero-turn mower.

MZ and MZ-T Series zero-turn mowers from Husqvarna take commercial value to a whole new level. The intuitive operator interface, 13-gauge 2" x 3" heavy-duty steel frame and commercial-rated hydraulic system provide the ultimate entry level commercial mowing experience. With durable steel decks that are mulch and collection capable, MZ and MZ-T mowers are the practical choice for all of your property maintenance needs.

MZ Series

- Large 22"-23" Rear Tires
- Mega-sized Welded Steel Frame
- Commercial-Rated Hydraulic Drive Systems
- Simple Foot-Operated Deck Lift
- Fabricated 11-Gauge Steel Deck (Select models)

POWERFUL BRIGGS & STRATTON ENGINE

The powerful new 810 cc Endurance Commercial Series features cyclonic air filtration, improved cylinder head cooling, standard oil coolers and strengthened bearing areas for increased durability (on select models).

PEDAL-ASSISTED CUTTING DECK LIFT

The ergonomically designed deck lifting system offers easy, quick and precise cutting height adjustment from the operator's seat.

ROLL OVER PROTECTION SYSTEM (ROPS)

The practical, foldable ROPS protects the user and can be lowered in areas with low-hanging branches. Standard on MZ-T models.

COMFORTABLE STEERING

Dual levers with foam-padded hand grips and viscous dampeners reduce vibration and create a comfortable operator experience.

ROPS Bar is Standard on MZ-T Models

Comfortable High-Back Seat With Arm Rests

Pedal-Assisted Cutting Deck Lift

Welded Steel Tube Frame Offers High Structural Strength

Professional Tread Tires

Heavy-Duty Cutting Decks

MZ-T 61

HEAVY-DUTY CONSTRUCTION

The commercial-quality cast-iron spindle housings are designed to provide years of trouble-free service.

RESIDENTIAL Z200 SERIES

Refined style and performance.

Cutting-edge design, proven performance and new innovative features combine to make lawn maintenance an event instead of a chore. This series comes equipped with an anti-slip foot pan, automatic parking brake that simplifies the starting process, assisted deck lift for reduced effort, and a removable foot pan that allows for easy access to the top of the cutting deck for cleaning and service.

- Rugged 1.5" x 2" Steel Tube Frame Construction
- Easy to Use Spring Assist Deck Lift
- Automatic Park Brake
- Removable, Anti-Slip Foot Pan
- Fabricated or Stamped Reinforced Decks

**HUSQVARNA'S

*All engine values are rated by the manufacturer. The power rating of the engines indicated is the average net power output (at specified RPM) of a typical production engine for the engine model measured to SAE standard J1349/ISO1585. Mass production engines may differ from this value. Actual power output for the engine installed in the final machine will depend on the operating speed, environmental conditions and other variables.
